Description

The 71001i-E is a petrol-powered, portable inverter generator powered by an 80cc, single-cylinder, 4-stroke OHV Champion engine that produces a max of 1000 watts.

With a 2.8 litre fuel tank this unit can run for up to 10 hours at 25% load. Our OHV engine is equipped with a low oil shut-off sensor and is designed for a long life and easy maintenance.

The unit also contains true-wave inverter technology, making it safe to power all your sensitive electronic devices such as laptops.

This unit is ideal for camping trips, traveling and light jobs around the house.

These units are stackable, and can be joined in parallel to produce more power as required.

3 YEAR WARRANTY

Features

- Up to 10 hours runtime @ 25% load
- Economy mode to save fuel
- Sine-wave inverter technology
- Auto throttle system
- Low oil shutdown
- Overload protection
- Low Noise
- Petrol Engine
- Lightweight
- Portable with built-in carry handle
- Stackable design - Parallel option
- 3 Year Warranty
